***APC Holding Corp.***

*Partners Group*, was created with the primary aim of providing an innovative Financial Company Operating on a worldwide basis, as a successful tool for Developing Business in an increasingly difficult global economy.

**WHAT DOES IT MEAN TO MAKE A FINANCE INVESTMENT PROGRAMME ON PRIVATE AND GOVERNMENT INFRASTRUCTURE?**

*GUIDO VIANELLO & Partners Group* is also specialized to make a Research, obtain and use Financial Funds and Subsidy paid from Government and specifically provided from the *European Community* through "Pre-Accession Funds"

To Finance the economic development of a State or of Large Groups of Investors, requires that the development is necessarily interconnected with the evolution of the entire global financial system.

The new financing methods for new investment in developing countries are the result of a cohesion and integration between the various European and World Financial Markets, this delicate process needs to be conducted by Qualified Financial Advisors operating on the Global Market.

For this purpose *GUIDO VIANELLO & Partners Group*, Studies and Organizes the Requirements from the territory, the Transformation of Requirements into Workable Projects, quality, which could be financed by the International Financial Market.

Thanks to our extensive relationships with the major World's Financial Institutions, we can find the right investor for every project. To support the Governmental Institution and/or Investment Groups in the realization of this very demanding target, we have the know-how on the Develop of the Project, Financial Instrument and procedures necessary to obtain in a Medium and Long-Term Financial Resources from the International Banking System.

**However we give specific support to every Private or Public Investment and so we are, able to give to every our customers the necessary independence.**

**IN SUMMARY WHAT WE OFFER TO OUR CUSTOMERS:**

- 1) Working full time to Develop every Strategies and to obtain the Full Implementation of the Project and so increase the International Financial Rating.
- 2) Evaluation of the Investment Program in relation to customer needs for optimal durability.
- 3) Assessment of the Feasibility of each proposed investment, Correction Factors and Financial Condition, all this to comply with International Financial Standards.
- 4) Study and Implementation of the optimal conditions for develop valid and interesting projects through International Banks and Grants from Private Investors, building the Financial Structure suited for every different project (Direct Investment, Bonds, Equity, Mixed Investments).
- 5) Risk Distribution between various banks in order to avoid the concentration of the same on a single bank.
- 6) **GUIDO VIANELLO & Partners Group**, will ensure the Enforcement of Better Financial Conditions currently available on the International Financial Market, and the Negotiation of Good Interest Rates, Duration, etc.

Yours Faithfully
